

FANIYI TIMILEHIN

SOFTWARE DEVELOPER

PROFILE

Full-stack developer with experience building responsive, scalable web applications. Delivered multiple production websites that boosted client online visibility and created training content on React, Node.js, and TypeScript. Aiming to apply full-stack expertise to drive robust, user-focused solutions for your team

WORK EXPERIENCE

McGeorge Consulting Limited

Full-Stack Developer

10/2025 - 02/2026

- Developed multiple production-level websites for different organizations, increasing their online visibility and accessibility.
- Tested, debugged, and resolved application issues, improving performance and overall system stability.
- Collaborated with team members to develop and deliver web applications within project timelines, ensuring responsive design and a seamless user experience.
- Developed and contributed to web development training content covering React.js, Node.js, JavaScript, TypeScript, and CMS for the company's learning platform.

Front-End Developer Intern

01/2023 - 08/2023

- Translated UI/UX designs and project requirements into responsive, user-friendly web interfaces with React, TypeScript, JavaScript, and Tailwind CSS, delivering a consistent experience across devices
- Tested, debugged, and resolved frontend and backend issues to improve application functionality, performance, and reliability.
- Collaborated with team members and management to plan, develop, and deliver web applications within project timelines.

Outsourced Language Technologies

Front-End Developer Intern

01/2023 - 09/2023

- Collaborated with engineers using React and TypeScript to implement and design responsive websites and software interfaces, resulting in a more intuitive user experience
- Participated in code reviews and provided feedback and reports for code improvement.
- Monitored industry trends and emerging technologies such as Next.js and Bootstrap, applying best practices to front-end projects, which enhanced maintainability and performance

EDUCATION

B.Eng. in Computer Engineering

2019-2025

University of Ilorin

GPA: 4.46/ 5.0
