Objective

IT, Operations, and Full-Stack Development professional with experience supporting IT infrastructure, technical operations, documentation, and commercial activities within the oil and gas environment. Experienced in developing and deploying responsive, scalable web applications and production websites using React, TypeScript, JavaScript, Tailwind CSS, and Node.js. Skilled in procurement, field service engineer mobilization, and coordination with engineering teams, clients, vendors, and OEMs. Combines strong software development capabilities with practical IT and operational experience to support digital solutions and technical operations.

Work Experience

Executive Assistant to the Operations Manager, *Rewaj Corporate Limited* 02/2026 – 10/2026
Rivers State, Nigeria

- Prepared and coordinated technical and commercial documents for oil and gas projects, including bids and mobilization activities.
- Coordinated with clients, OEMs, procurement, and finance teams to compile project documentation and support project execution.
- Maintained a well-organized Excel-based project tracking system covering ongoing projects, completed/past projects, RFQs, pay advice, quotations, and outstanding actions.
- Prepared and managed RFQs, quotations, reports, meeting minutes, and project correspondence.

Full-Stack Developer, *McGeorge Consulting Limited* 10/2025 – 02/2026
Kwara State, Nigeria

- Developed multiple production-level websites for different organizations, increasing their online visibility and accessibility.
- Tested, debugged, and resolved application issues, improving performance and overall system stability.
- Collaborated with team members to develop and deliver web applications within project timelines, ensuring responsive design and a seamless user experience.
- Developed and contributed to web development training content covering React.js, Node.js, JavaScript, TypeScript, and CMS for the company's learning platform.

IT Infrastructure Engineering Intern, *AIICO Insurance Plc* 04/2024 – 10/2024
Lagos, Nigeria

- Provided technical support to end users, responding promptly to service issues, requests, and technical incidents.
- Collaborated with senior engineers to implement and maintain network security measures across the organization.
- Diagnosed and resolved network connectivity issues, minimizing disruption to users and business operations.
- Performed network troubleshooting, hardware and software diagnostics, and system maintenance to ensure reliable IT operations.

Front-End Developer Intern, *Outsourced Language Technologies* 01/2023 – 09/2023
Abuja, Nigeria

- Collaborated with engineers using React and TypeScript to implement and design responsive websites and software interfaces, resulting in a more intuitive user experience
- Participated in code reviews and provided feedback and reports for code improvement.
- Monitored industry trends and emerging technologies such as Next.js and Bootstrap, applying best practices to front-end projects, which enhanced maintainability and performance

Education

B.Eng. Computer Engineering, *University of Ilorin* Kwara State, Nigeria

Skills

Operations & Project Support

- Technical Documentation
- Project Coordination
- RFQs & Quotations
- OEM Coordination
- Field Service Mobilization
- Client Communication
- Meeting & Action Tracking
- Procurement Coordination

Programming Languages

- JavaScript
- TypeScript
- React
- Tailwind CSS
- Bootstrap
- Node.js
- Next.js

IT Infrastructure & Support

- Network Troubleshooting
- IT Infrastructure Support
- Hardware & Software Troubleshooting
- CAT6 Cabling,
- Technical Support
